Eight ways to help you...

Cables, looms and harnesses

One off samples, small production runs or high volume bespoke and discreet cable assemblies, forms, looms and harnesses.

PCB population, calibration and test

Populating single sided, double sided and multi-layer surface mount and conventional boards – all made to the latest standards and approvals.

Sub-assembly and prototype build

Building samples, prototypes and sub-assemblies, large or small, incorporating electronic, mechanical pneumatic, hydraulic or optical items.

Box build – product and system construction

Manufacture of a wide range of products and systems, large and small – no matter how demanding application.

Panel and cabinet production

Panels of any size or type – including those with sophisticated PLC controls, high voltage electrical distribution or relay components.

Bespoke test boxes and support equipment

From a simple test box to sophisticated rack mounted equipment, we can build the most basic kit or the most complicated.

Product rework and refurbishment

A comprehensive product rework and refurbishment service for all types of electrical equipment, large or small.

Complete manufacturing

A complete manufacturing service – from prototypes right through to full product and system build, calibration, test and packaging.

Let's talk! Just ring us on our new number – 01767 600900... today.

When it's your reputation, rely on CableTronics
